## BGCMD UPDATES

### **Mayor's Design Award**

We are excited to announce that the **Nancy P. Anschutz Center** (featuring the Jack A. Vickers Boys & Girls Club) was selected to receive the 2014 Mayor's Design Award in the "Distinctive Denver" category. This category honors projects with unique features or elements that set them apart from similar structures, uses, and building forms. Since 2005, the Mayor's Design Awards have honored projects throughout the city for excellence in architecture, exterior design and place-making. In addition to housing the Vickers Boys & Girls Club, the Nancy P. Anschutz Center is a resource for the entire Northeast Park Hill Community.

We are thrilled that the hard work of Boys & Girls Clubs of Metro Denver, **Jim Bershof and OZ Architecture**, Saunders Construction and all of our partners is being honored for this important award. To learn more about the awards, please visit: [www.DenverGov.org/MDA](http://www.DenverGov.org/MDA)
